For the first time, the **international Gender Design Network/iGDN** will be presenting a new, important and unique award: the **iphiGenia Gender Design Award / iGDA**.

Out of many different entries, an expert jury has selected the two award winners, who will be honoured at the **MAKK on 12 October 2017**:

- The **iGDA Evolution** goes to a young and very successful New York-based company that designs, produces and sells innovative, sustainable and beautiful products for women. The company has also founded a charitable organisation to empower girls and young women, in particular in Africa.
- The **iGDA Revolution** goes to the Danish branch of an international agency for their radical, resourceful and provocative intervention that uses gender-sensitive thinking and design to disrupt international photo databases.

**Representatives of both organisations will be present at the award ceremony on October 12th, 2017.**

Come and join us for this wonderful occasion!  
We look forward to seeing you at the MAKK.

Uta Brandes  
(iGDN Chair)
